

A person is lying face down on a blue massage table. Several white robotic arms are positioned around the person, appearing to perform a massage or bodywork. The scene is dimly lit, with the focus on the person and the robots.

PARTNER OVERVIEW

Guests now expect recovery. Any venue can deliver it.

Aescape turns one underused room into precision bodywork guests book themselves — incremental, high-margin revenue with zero added headcount required. You own it outright; Aescape services and updates it remotely.

THE VALUE

Recovery is becoming infrastructure.

Human-delivered bodywork can't be staffed, scheduled, or standardized at scale — which is why wellness amenities stall at the staffing line. Aescape delivers precision bodywork autonomously: designed by expert Licensed Massage Therapists, personalized to each body, and available every hour you're open. It complements the practitioners you may already have.

IT EARNS

A bookable amenity in a room that wasn't earning. You set session pricing, decide who gets access, and keep the revenue — the return runs on your numbers, not ours.

IT'S TURNKEY

No build-out, no new department. Guests self-schedule and self-serve; Aescape services and updates the table remotely.

IT'S DIFFERENTIATED

A flagship amenity guests can't get next door — the same table behind Equinox, Four Seasons, and Marriott.

One room, a standard outlet, and a reason to choose your venue.

THE PRODUCT

Adaptive Body Therapy: personalized every session, consistent for every guest.

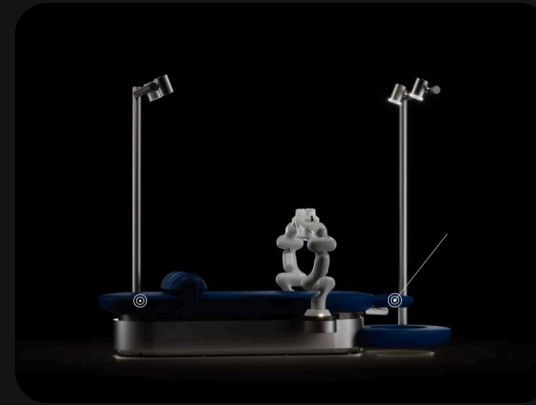

Body mapping

Every session starts with a real-time map of the body — targeted work from the first minute.

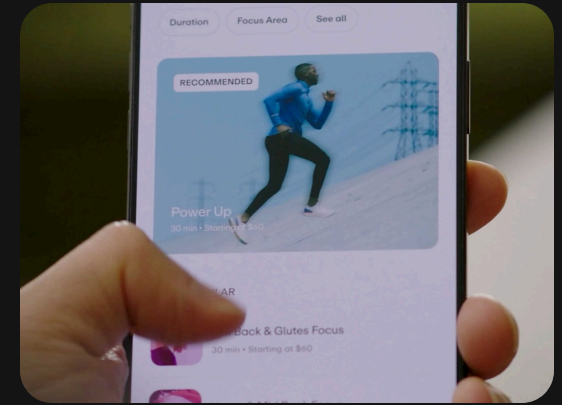

Real-time adaptation

Guests tune pressure, focus, music, and visuals throughout. Theirs, every time.

Consistency at scale

Private and self-guided. No oils, no shower — guests are back to their day in minutes.

Results that build

Outcomes improve with regular use and preferences carry over — a real reason to come back.

THE APPAREL

Why guests change into Aescape apparel.

No oils, no table linens between guests, no need to shower — which is why Aescape can transform any space, and why guests can make it routine.

01

It keeps the scan accurate

Every session starts by mapping the body. Some fabrics and dyes interfere with that read, so we standardize the garment — and the scan stays precise for every guest, every time.

02

It sets the right friction

In manual bodywork, oil is what keeps a hand from dragging on skin. The fabric does that job instead — enough glide for the touch points to move across the body, enough traction to hold pressure where it's needed. Nothing is applied to the skin: no oils, no lotions.

03

Straight back to the day

No oils on the skin means no shower and no downtime — guests change back and go. Full coverage in a fitted, breathable garment keeps them covered and at ease throughout.

04

Resets in minutes

A quick wipe with a disinfectant cloth and the room is ready for the next guest — no table linens to change between sessions, no treatment room to turn over.

160 sets ship with every table, XXS–XXXL. Washable and reusable — laundered with your normal linen service.

Built to out-deliver every alternative.

WHERE AESCAPE FITS

Drop it into the room you already have.

8 × 10' of floor space, a room or open space — no build-out, no plumbing. A few of the places it earns:

Spa or treatment room

Fitness or wellness area

Quiet room or nap area

Lobby-adjacent room

Locker-room corridor

Underused corner

Flex space between uses

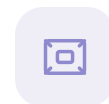

A room of its own

EASY TO DEPLOY

Minimal footprint. No buildout.

A standalone system that fits almost any room — no plumbing, no construction, with white-glove delivery and installation in 1–2 days.

FOOTPRINT

THE NETWORK

OPT-IN

Drive demand, book sessions, process payment — across the network.

The Aescape Network puts your location in front of recovery-seekers and routes incremental bookings to you — on top of the demand you already drive. **No booking or payment stack to build.**

0%

bookings from your own booking platform

7.5%

your members and customers, booked through the Aescape app

15%

returning Aescape users the Network brings to you

30%

first-time Aescape users — new to Aescape, not just new to you

You control how much Network demand you accept — down to zero — anytime.

Three layers. One partner-friendly commercial model.

Hardware delivers the experience. Platform keeps it performing. Network adds demand on top of your own.

HARDWARE

One-time. You own it.

A fully integrated recovery table, installed and supported. 3-year warranty with 2-year extension available, ~99% uptime, 2-day field SLA.

\$125,000

Delivery, white-glove install, training, apparel, and launch marketing assets included.

PLATFORM

Annual. Keeps it performing.

Software, remote monitoring, reporting, recovery content, and dedicated Partner Success.

SAVE \$10,000

\$10K annually per device

Bundle 5 years of Platform with your purchase and save 20%. 2-year commitment, then renews annually.

NETWORK

Opt-in. Pay for outcomes.

Discovery, booking, and incremental demand that drives utilization, managed by Aescape.

Pay for Performance

0% on your own booking platform · 7.5% your members and customers booked through the Aescape app · 15% returning · 30% on first-time Aescape users.

WHO DOES WHAT

Built to run inside your operation, not on top of it.

What Aescape handles

- Delivery, installation, and setup
- Body mapping and personalized session delivery, every time
- Unit maintenance, ~99% uptime, and 2-day field-repair response
- Software updates and recovery content
- Revenue dashboards, Partner Success, growth playbooks, and enablement support

Opt into Network for:

- Discovery & booking platform
- Commerce & revenue tools
- Demand, lifecycle & retention marketing

What your team does

- Introduce and position Aescape within your venue, in whatever way fits your brand
- Decide who gets access — guests, members, staff, or all three
- Set your own session pricing and how it fits your existing offers
- Choose the room it lives in and how guests book it
- Track revenue and utilization through the dashboard and adjust as you see fit

Thank you.
